

SAFETY DATA SHEET

CADMIUM SULFATE

SECTION 1: Identification of the substance/mixture and of the company/undertaking Trade name:

1.1 Product identifier:	
CAS Number:	10124-36-4
EC number:	233-331-6
1.2 SYNONYMS:	<ul style="list-style-type: none">• Cadmium(II) sulfate• Sulfuric acid, cadmium salt

SECTION 2: Hazards identification:

2.1 Classification of the substance or mixture:	Classification according to Regulation (EC) No 1272/2008 The substance is classified according to the CLP regulation.
2.2 Label elements:	Labelling according to Regulation (EC) No 1272/2008 Acute toxicity, oral (Category 3) Acute toxicity, inhalation (Category 2) Germ cell mutagenicity, (Category 1B) Carcinogenicity, (Category 1B) Reproductive toxicity, (Category 1B) Specific target organ toxicity - repeated exposure, kidney, (Category 1) Short-term (acute) aquatic hazard, (Category 1) Long-term (chronic) aquatic hazard, (Category 1)
Hazard Pictograms:	
Signal Word:	Danger
Hazard statements:	H301: Toxic if swallowed. H330: Fatal if inhaled. H340: May cause genetic defects. H350: May cause cancer. H360FD: May damage fertility or the unborn child.

	<p>H372: Causes damage to organs through prolonged or repeated exposure.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p>
Precautionary Statements:	<p>P261: Avoid breathing dust.</p> <p>P264: Wash skin thoroughly after handling.</p> <p>P280: Wear protective gloves/protective clothing/eye protection/face protection.</p> <p>P273: Avoid release to the environment.</p> <p>P303+P361+P353: IF ON SKIN (or hair): Remove/take off immediately all contaminated clothing. Rinse skin with water/shower.</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.</p> <p>P301+P312: IF SWALLOWED: Call a POISON CENTER or doctor if you feel unwell.</p> <p>P404: Store in a closed container.</p> <p>P501: Dispose of contents/container to an approved waste disposal plant.</p>
2.3 Other hazards:	
Inhalation:	<p>can cause severe irritation of the respiratory tract, coughing, shortness of breath, pulmonary edema, and long-term exposure may lead to chronic lung disease and kidney damage.</p>
Ingestion:	<p>can cause severe gastrointestinal irritation, nausea, vomiting, abdominal pain, diarrhea, and may lead to kidney damage, liver injury, and systemic toxicity.</p>

Skin Contact:	can cause irritation, redness, and possible allergic reactions, and prolonged or repeated exposure may lead to dermatitis and absorption of toxic cadmium through the skin.
Eye contact:	can cause severe irritation, redness, pain, and potential damage to the cornea, possibly resulting in impaired vision if not promptly treated.
Chronic Exposure:	can lead to kidney damage, bone demineralization (Itai-itai disease), lung damage, reproductive toxicity, and an increased risk of cancer.
Aggravation of pre-existing conditions:	can aggravate pre-existing respiratory conditions (like asthma or chronic bronchitis), kidney disorders, and liver disease, worsening symptoms and increasing susceptibility to toxic effects.

SECTION 3: Composition/information on ingredients

3.1 Chemical characterisation:	Substances
CAS No:	Description: 10325-94-7 CADMIUM SULFATE
Identification number(s):	EC number: 233-331-6

SECTION 4: First aid measures

4.1 Description of first aid measures	
General information:	
After inhalation:	If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.
After skin contact:	Remove contaminated clothing. Wash with soap and water. Consult a physician.

After eye contact:	Immediately flush eyes with plenty of water for at least 15 minutes. consult a physician.
After swallowing:	Rinse mouth with water. Immediately after ingestion. Never give anything by mouth to an unconscious person. Do not induce vomiting. Consult a physician.
4.2 Most important symptoms and effects, both acute and delayed:	Acute exposure can cause irritation of the eyes, skin, and respiratory tract, nausea, vomiting, and abdominal pain, while delayed or chronic exposure may lead to kidney damage, bone demineralization, lung disease, and increased cancer risk.
4.3 Indication of any immediate medical attention and special treatment needed:	Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media:	Water, Carbon dioxide dry powder, Alcohol-resistant foam.
5.2 Special hazards arising from the substance or mixture:	Cadmium oxides, sulfur oxides.
5.3 Advice for firefighters:	Wear fully protective suit, safety glasses and respiratory device. Cool tanks/drums with water spray/remove them into safety.
5.4 further information:	no data available

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:	Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations.
---	--

	Avoid dust accumulation. Seek medical attention.
6.2 Environmental precautions:	Do not enter this chemical into drains.
6.3 Methods and material for containment and cleaning up:	Take up spill into absorbent material, e.g.: sand, earth, vermiculite, powdered limestone. Scoop absorbed substance into closing containers. Spill must not return in its original container. Clean contaminated surfaces with an excess of water. Wash clothing and equipment after handling.

SECTION 7: Handling and storage

7.1 Precautions for safe handling:	For use in are with adequate ventilation. Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material Do not use in confined spaces. Electrostatic discharge protection. Minimize dust generation and accumulation. Avoid ingestion and inhalation.
7.2 Conditions for safe storage, including any incompatibilities:	Store in original containers. Keep containers securely sealed Store in a cool, dry, well-ventilated area. Store away from incompatible materials and foodstuff containers. Protect containers against physical damage and check regularly for leaks. Store in a dry and dark area. Hygroscopic.
Requirements to be met by storerooms and receptacles:	Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.
7.3 Specific end uses:	no data available

SECTION 8: Exposure controls/personal protection

8.1 Control parameters	
Additional information about design of technical facilities:	A system of local and general exhaust is recommended.
8.2 Exposure controls	
Appropriate engineering controls	Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.
Personal protective equipment:	Dust respirator, protective masks, wearing anti chemical gloves, rubber gloves, etc.
General protective and hygienic measures:	Eyes, body and hand protection, maintain indoor air unobstructed. Wear protective equipment.
	Respiratory protection: Required.
Protection of hands:	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws. Wash and dry hands.
	Eye protection: Required
Protection of Body:	Complete suit protecting against chemicals, Flame retardant antistatic protective clothing.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties General Information	
Appearance: Form:	Crystalline powder
Colour:	White to colourless
Odour:	Odourless
pH-value:	5
Melting point/Melting range:	980°C
Boiling point/Boiling range:	Not determined
Flammability (solid, gaseous):	Non-flammable
Ignition temperature:	Not determined

Decomposition temperature:	980°C
Self-igniting:	None
Flash point:	Not determined
Danger of explosion:	None
Explosion limits: Lower:	No data available
Explosion limits: Upper:	No data available
Vapour pressure:	No data available
Density at 20 °C:	4.7 g/cm ³
Relative density:	4.7
Vapour density:	No data available
Evaporation rate:	No data available
Solubility in / Miscibility with-water at 20 °C:	Highly Soluble
Partition coefficient:(n-octanol/water)	-1.5
Viscosity:	No data available

SECTION 10: Stability and reactivity

10.1 Reactivity	No data available
10.2 Chemical stability	Stable under recommended storage conditions.
10.3 Possibility of hazardous reactions	Reacts with strong reducing agents, producing toxic cadmium compounds or releasing sulfur oxides.
10.4 Conditions to avoid	Heat, sparks, flames, air, moisture.
10.5 Incompatible materials	Strong oxidizing agents, strong bases, strong reducing agents.
10.6 Hazardous decomposition products	Cadmium oxides, sulfur oxides.

SECTION 11: Toxicological information

11.1 Information on toxicological effects	
Acute Toxicity:	LD50 (Oral, Rat): no data available LD50 (Dermal, Rabbit): no data available LC50 (Inhalation Rat): no data available
Skin corrosion/Irritation:	No data available

Serious eye damage/irritation:	No data available
Respiratory damage/irritation:	No data available
Ingestion:	No data available
Germ cell mutagenicity:	May cause genetic defects.
Carcinogenicity:	May cause cancer
Reproductive toxicity:	May damage fertility
Specific target organ toxicity - single exposure:	No data available
Specific target organ toxicity - repeated exposure:	May damage the kidney and bones.
Aspiration hazard:	No data available
Signs and Symptoms of Exposure:	Refer section 2.3
11.2 Additional toxicological information	
Biodegradability:	Not biodegradable

SECTION 12: Ecological information

12.1 Toxicity Aquatic toxicity:	LC50(fish): no data available EC50(daphnia): no data available EC50(algae): no data available
12.2 Persistence and degradability:	Not biodegradable
12.3 Bioaccumulative potential:	High bioaccumulative
12.4 Mobility in soil:	High mobility
12.5 Other adverse effects:	No data available

SECTION 13: Disposal considerations

13.1 Waste treatment methods	
Uncleaned packaging Recommendation:	dispose of in accordance with local hazardous waste regulations
Recommended cleansing agents:	Water, dilute hydrochloric acid (1%), mild soap or detergent.

SECTION 14: Transport information

14.1 UN-Number · ADR, ADN, IMDG, IATA:	2570
14.2 UN proper shipping name · ADR, ADN, IMDG, IATA:	CADMIUM SULPHATE
14.3 Transport hazard class(es) · ADR, ADN, IMDG, IATA :	6.1

14.4 Packing group · ADR, IMDG, IATA:	2
14.5 Environmental hazards:	Yes
14.6 Special precautions for user:	Handle responsibly.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Directive 2012/18/EU	Directive 2012/18/EU, under that this substance is classified in listed substances as environmental hazard and acute toxic.
Named dangerous substances:	This substance is not listed in the annex 1 to the directive.
15.2 Chemical safety assessment:	Chemical assessment has not been carried out

SECTION 16: Other information

The data included was derived from international authoritative database and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.
