| <b>2.3 Other hazards:</b>                      |                                                                                                                                                                                                                                   |
| <b>Inhalation:</b>                             | can irritate the respiratory tract, cause coughing, shortness of breath, and prolonged exposure may lead to lung damage.                                                                                                          |
| <b>Ingestion:</b>                              | can cause nausea, vomiting, abdominal pain, diarrhea, and in severe cases, systemic iron poisoning which may damage organs.                                                                                                       |
| <b>Skin Contact:</b>                           | can cause irritation, redness, and in prolonged exposure, dermatitis or burns.                                                                                                                                                    |
| <b>Eye contact:</b>                            | can cause irritation, redness, tearing, and in severe cases, chemical burns or damage to the cornea.                                                                                                                              |
| <b>Chronic Exposure:</b>                       | can lead to skin sensitization, respiratory issues, and iron accumulation in the body, potentially causing organ damage such as liver or heart problems.                                                                          |
| <b>Aggravation of pre-existing conditions:</b> | may aggravate pre-existing respiratory conditions, skin disorders, or liver and heart problems due to its irritant and iron-accumulating effects.                                                                                 |

### SECTION 3: Composition/information on ingredients

|                                       |                                            |

| <b>4.1 Description of first aid measures</b>                                           |                                                                                                                                                                                                                                                   |
| <b>General information:</b>                                                            |                                                                                                                                                                                                                                                   |
| <b>After inhalation:</b>                                                               | If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.                                                                                                                                   |
| <b>After skin contact:</b>                                                             | Remove contaminated clothing. Wash with soap and water. Consult a physician.                                                                                                                                                                      |
| <b>After eye contact:</b>                                                              | Immediately flush eyes with plenty of water for at least 15 minutes. consult a physician.                                                                                                                                                         |
| <b>After swallowing:</b>                                                               | Rinse mouth with water. Immediately after ingestion. Never give anything by mouth to an unconscious person. Do not induce vomiting. Consult a physician.                                                                                          |
| <b>4.2 Most important symptoms and effects, both acute and delayed:</b>                | Acute exposure can cause irritation of the eyes, skin, and respiratory tract, nausea, vomiting, and abdominal pain, while delayed or chronic effects may include organ damage from iron accumulation and persistent respiratory or skin problems. |
| <b>4.3 Indication of any immediate medical attention and special treatment needed:</b> | Treat symptomatically.                                                                                                                                                                                                                            |

## SECTION 5: Firefighting measures

|                                                                   |                                                                                                                               |
|-------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>5.1 Extinguishing media:</b>                                   | Water, Carbon dioxide dry powder, Alcohol-resistant foam.                                                                     |
| <b>5.2 Special hazards arising from the substance or mixture:</b> | Iron oxides, hydrogen chloride.                                                                                               |
| <b>5.3 Advice for firefighters:</b>                               | Wear fully protective suit, safety glasses and respiratory device. Cool tanks/drums with water spray/remove them into safety. |

**5.4 further information:**

no data available

## SECTION 6: Accidental release measures

|                                                                                 |                                                                                                                                                                                                                                                                                                |
|---------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>6.1 Personal precautions, protective equipment and emergency procedures:</b> | Use personal protective equipment.<br>Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Avoid dust accumulation. Seek medical attention.    |
| <b>6.2 Environmental precautions:</b>                                           | Do not enter this chemical into drains.                                                                                                                                                                                                                                                        |
| <b>6.3 Methods and material for containment and cleaning up:</b>                | Take up spill into absorbent material, e.g.: sand, earth, vermiculite, powdered limestone. Scoop absorbed substance into closing containers. Spill must not return in its original container. Clean contaminated surfaces with an excess of water. Wash clothing and equipment after handling. |

## SECTION 7: Handling and storage

|                                                                          |                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>7.1 Precautions for safe handling:</b>                                | For use in are with adequate ventilation.<br>Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material<br>Do not use in confined spaces. Electrostatic discharge protection. Minimize dust generation and accumulation.<br>Avoid ingestion and inhalation. |
| <b>7.2 Conditions for safe storage, including any incompatibilities:</b> | Store in original containers. Keep containers securely sealed<br>Store in a cool, dry, well-ventilated area. Store away from incompatible materials and foodstuff containers.                                                                                                                                         |

|                                                              |                                                                                                                                                                      |
|--------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                              | Protect containers against physical damage and check regularly for leaks. Store in a dry and dark area.<br><b>Air and moisture sensitive. Store under inert gas.</b> |
| <b>Requirements to be met by storerooms and receptacles:</b> | Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.        |
| <b>7.3 Specific end uses:</b>                                | no data available                                                                                                                                                    |

## SECTION 8: Exposure controls/personal protection

|                                                                     |                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>8.1 Control parameters</b>                                       |                                                                                                                                                                                                                                                                                  |
| <b>Additional information about design of technical facilities:</b> | A system of local and general exhaust is recommended.                                                                                                                                                                                                                            |
| <b>8.2 Exposure controls</b>                                        |                                                                                                                                                                                                                                                                                  |
| <b>Appropriate engineering controls</b>                             | Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.                                                                                                                                                       |
| <b>Personal protective equipment:</b>                               | Dust respirator, protective masks, wearing anti chemical gloves, rubber gloves, etc.                                                                                                                                                                                             |
| <b>General protective and hygienic measures:</b>                    | Eyes, body and hand protection, maintain indoor air unobstructed. Wear protective equipment.                                                                                                                                                                                     |
|                                                                     | <b>Respiratory protection:</b> Required.                                                                                                                                                                                                                                         |
| <b>Protection of hands:</b>                                         | Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws. Wash and dry hands. |
|                                                                     | <b>Eye protection:</b> Required                                                                                                                                                                                                                                                  |
| <b>Protection of Body:</b>                                          | Complete suit protecting against chemicals, Flame retardant antistatic protective clothing.                                                                                                                                                                                      |

## SECTION 9: Physical and chemical properties

|                                                                  |                             |
|------------------------------------------------------------------|-----------------------------|
| <b>9.1 Information on basic physical and chemical properties</b> |                             |
| <b>General Information</b>                                       |                             |
| <b>Appearance: Form:</b>                                         | Crystalline powder/crystals |
| <b>Colour:</b>                                                   | Pale green                  |
| <b>Odour:</b>                                                    | Odourless                   |
| <b>pH-value:</b>                                                 | 3                           |
| <b>Melting point/Melting range:</b>                              | 677°C                       |
| <b>Boiling point/Boiling range:</b>                              | Not determined              |
| <b>Flammability (solid, gaseous):</b>                            | Non-Flammable               |
| <b>Ignition temperature:</b>                                     | No data available           |
| <b>Decomposition temperature:</b>                                | 670°C                       |
| <b>Self-igniting:</b>                                            | None                        |
| <b>Flash point:</b>                                              | No data available           |
| <b>Danger of explosion:</b>                                      | None                        |
| <b>Explosion limits: Lower:</b>                                  | Not determined              |
| <b>Explosion limits: Upper:</b>                                  | Not determined              |
| <b>Vapour pressure:</b>                                          | No data available           |
| <b>Density at 20 °C:</b>                                         | 2.15 g/cm <sup>3</sup>      |
| <b>Relative density:</b>                                         | 2.15                        |
| <b>Vapour density:</b>                                           | Not determined              |
| <b>Evaporation rate:</b>                                         | No data available           |
| <b>Solubility in / Miscibility with-water at 20 °C:</b>          | Soluble                     |
| <b>Partition coefficient:(n-octanol/water)</b>                   | No data available           |
| <b>Viscosity:</b>                                                | No data available           |

## SECTION 10: Stability and reactivity

|                                                |                                                                                            |
|------------------------------------------------|--------------------------------------------------------------------------------------------|
| <b>10.1 Reactivity</b>                         | No data available                                                                          |
| <b>10.2 Chemical stability</b>                 | Stable under recommended storage conditions.                                               |
| <b>10.3 Possibility of hazardous reactions</b> | Reacts violently with strong oxidizing agents, producing heat and potentially toxic fumes. |
| <b>10.4 Conditions to avoid</b>                | Heat, sparks, flames, air, water, moisture.                                                |
| <b>10.5 Incompatible materials</b>             | Strong oxidizing agents, strong acids and bases.                                           |
| <b>10.6 Hazardous decomposition products</b>   | Iron oxides, hydrogen chloride.                                                            |

## SECTION 11: Toxicological information

|                                                            |                                                                                                                                                  |
