| <b>2.3 Other hazards:</b>                      |                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Inhalation:</b>                             | dust or mist can irritate the respiratory tract, causing coughing, shortness of breath, and in severe cases, pulmonary edema.                                                                                                                                                                                                                                                                    |
| <b>Ingestion:</b>                              | can cause nausea, vomiting, abdominal pain, diarrhea, and in large amounts, dizziness, tremors, or more severe toxic effects on the nervous system and heart.                                                                                                                                                                                                                                    |
| <b>Skin Contact:</b>                           | can cause irritation, redness, and dryness, and prolonged or repeated exposure may lead to dermatitis.                                                                                                                                                                                                                                                                                           |
| <b>Eye contact:</b>                            | can cause irritation, redness, pain, and watering, and prolonged exposure may result in more severe eye damage.                                                                                                                                                                                                                                                                                  |
| <b>Chronic Exposure:</b>                       | may lead to kidney damage, thyroid dysfunction, neurological effects such as tremors or mood changes, and prolonged skin or respiratory irritation.                                                                                                                                                                                                                                              |
| <b>Aggravation of pre-existing conditions:</b> | can aggravate pre-existing respiratory conditions (like asthma or bronchitis), skin disorders (such as eczema), kidney or thyroid problems, and neurological or cardiac conditions.                                                                                                                                                                                                              |

| <b>General information:</b>                                                            |                                                                                                                                                                                                                                                                  |
| <b>After inhalation:</b>                                                               | If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.                                                                                                                                                  |
| <b>After skin contact:</b>                                                             | Remove contaminated clothing immediately. Wash with plenty of water. Consult a physician.                                                                                                                                                                        |
| <b>After eye contact:</b>                                                              | Immediately flush eyes with plenty of water for at least 15 minutes. consult a physician.                                                                                                                                                                        |
| <b>After swallowing:</b>                                                               | Rinse mouth with water. Immediately after ingestion. If conscious, make victim drink two glasses at most immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting. Consult a physician.                                        |
| <b>4.2 Most important symptoms and effects, both acute and delayed:</b>                | Acute exposure can cause irritation of the eyes, skin, and respiratory tract, nausea, vomiting, and dizziness, while delayed or chronic effects may include kidney and thyroid dysfunction, neurological symptoms, and prolonged respiratory or skin irritation. |
| <b>4.3 Indication of any immediate medical attention and special treatment needed:</b> | Treat symptomatically.                                                                                                                                                                                                                                           |

## SECTION 5: Firefighting measures

|                                                                   |                                                                                                                               |
|-------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>5.1 Extinguishing media:</b>                                   | Water, Carbon dioxide dry chemical, Alcohol-resistant foam.                                                                   |
| <b>5.2 Special hazards arising from the substance or mixture:</b> | lithium oxides, hydrogen bromide.                                                                                             |
| <b>5.3 Advice for firefighters:</b>                               | Wear fully protective suit, safety glasses and respiratory device. Cool tanks/drums with water spray/remove them into safety. |
| <b>5.4 further information:</b>                                   | no data available                                                                                                             |

## SECTION 6: Accidental release measures

|                                                                                 |                                                                                                                                                                                                                                                                                                |
|---------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>6.1 Personal precautions, protective equipment and emergency procedures:</b> | Use personal protective equipment.<br>Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Avoid dust accumulation. Seek medical attention.    |
| <b>6.2 Environmental precautions:</b>                                           | Do not enter this chemical into drains.                                                                                                                                                                                                                                                        |
| <b>6.3 Methods and material for containment and cleaning up:</b>                | Take up spill into absorbent material, e.g.: sand, earth, vermiculite, powdered limestone. Scoop absorbed substance into closing containers. Spill must not return in its original container. Clean contaminated surfaces with an excess of water. Wash clothing and equipment after handling. |

## SECTION 7: Handling and storage

|                                           |                                                                                                                                                                   |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>7.1 Precautions for safe handling:</b> | For use in are with adequate ventilation.<br>Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                                                          |                                                                                                                                                                                                                                                                                                            |
|--------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                          | Do not use in confined spaces. Electrostatic discharge protection. Minimize dust generation and accumulation. Avoid ingestion and inhalation.                                                                                                                                                              |
| <b>7.2 Conditions for safe storage, including any incompatibilities:</b> | Store in original containers. Keep containers securely sealed. Store in a cool, dry, well-ventilated area. Store away from incompatible materials and foodstuff containers. Protect containers against physical damage and check regularly for leaks. Store in a dry and dark area.<br><b>Hygroscopic.</b> |
| <b>Requirements to be met by storerooms and receptacles:</b>             | Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.                                                                                                                                              |
| <b>7.3 Specific end uses:</b>                                            | no data available                                                                                                                                                                                                                                                                                          |

## SECTION 8: Exposure controls/personal protection

|                                                                     |                                                                                                                            |
|---------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>8.1 Control parameters</b>                                       |                                                                                                                            |
| <b>Additional information about design of technical facilities:</b> | A system of local and general exhaust is recommended.                                                                      |
| <b>8.2 Exposure controls</b>                                        |                                                                                                                            |
| <b>Appropriate engineering controls</b>                             | Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. |
| <b>Personal protective equipment:</b>                               | Dust respirator, protective masks, wearing anti chemical gloves, rubber gloves, etc.                                       |
| <b>General protective and hygienic measures:</b>                    | Eyes, body and hand protection, maintain indoor air unobstructed. Wear protective equipment.                               |
|                                                                     | <b>Respiratory protection:</b> Required.                                                                                   |

|                             |                                                                                                                                                                                                                                                                                  |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Protection of hands:</b> | Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws. Wash and dry hands. |
|                             | <b>Eye protection:</b> Required                                                                                                                                                                                                                                                  |
| <b>Protection of Body:</b>  | Complete suit protecting against chemicals, Flame retardant antistatic protective clothing.                                                                                                                                                                                      |

## SECTION 9: Physical and chemical properties

|                                                                  |                                     |
|------------------------------------------------------------------|-------------------------------------|
| <b>9.1 Information on basic physical and chemical properties</b> |                                     |
| <b>General Information</b>                                       |                                     |
| <b>Appearance: Form:</b>                                         | Crystalline powder/granules/flakes. |
| <b>Colour:</b>                                                   | White                               |
| <b>Odour:</b>                                                    | Odourless                           |
| <b>pH-value:</b>                                                 | 8                                   |
| <b>Melting point/Melting range:</b>                              | 552°C                               |
| <b>Boiling point/Boiling range:</b>                              | Not determined                      |
| <b>Flammability (solid, gaseous):</b>                            | Non-flammable                       |
| <b>Ignition temperature:</b>                                     | No data available                   |
| <b>Decomposition temperature:</b>                                | 552°C                               |
| <b>Self-igniting:</b>                                            | None                                |
| <b>Flash point:</b>                                              | No data available                   |
| <b>Danger of explosion:</b>                                      | None                                |
| <b>Explosion limits: Lower:</b>                                  | No data available                   |
| <b>Explosion limits: Upper:</b>                                  | no data available                   |
| <b>Vapour pressure:</b>                                          | No data available                   |
| <b>Density at 20 °C:</b>                                         | 3.46 g/cm <sup>3</sup>              |
| <b>Relative density:</b>                                         | 3.46                                |
| <b>Vapour density:</b>                                           | Not determined                      |
| <b>Evaporation rate:</b>                                         | Not determined                      |
| <b>Solubility in / Miscibility with-<br/>·water at 20 °C:</b>    | Highly Soluble                      |
| <b>Partition coefficient:(n-<br/>octanol/water)</b>              | -3                                  |

|                   |                   |
|-------------------|-------------------|
| <b>Viscosity:</b> | No data available |
|-------------------|-------------------|

## SECTION 10: Stability and reactivity

|                                                |                                                   |
|------------------------------------------------|---------------------------------------------------|
| <b>10.1 Reactivity</b>                         | No data available                                 |
| <b>10.2 Chemical stability</b>                 | This chemical is stable under storage conditions. |
| <b>10.3 Possibility of hazardous reactions</b> | Reacts violently with strong oxidizing agents.    |
| <b>10.4 Conditions to avoid</b>                | Heat, open flames, sparks, moisture, water.       |
| <b>10.5 Incompatible materials</b>             | Strong oxidizing agents, strong acids and bases.  |
| <b>10.6 Hazardous decomposition products</b>   | Lithium oxides, hydrogen bromide.                 |

## SECTION 11: Toxicological information

|                                                            |                                                                                                                                                  |
|------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>11.1 Information on toxicological effects</b>           |                                                                                                                                                  |
| <b>Acute Toxicity:</b>                                     | <b>LD50</b> (Oral, Rat): no data available<br><b>LD50</b> (Dermal, Rabbit): no data available<br><b>LC50</b> (Inhalation Rat): no data available |
| <b>Skin corrosion/Irritation:</b>                          | Causes serious skin irritation                                                                                                                   |
| <b>Serious eye damage/irritation:</b>                      | Causes eye irritation                                                                                                                            |
| <b>Respiratory damage/irritation:</b>                      | No data available                                                                                                                                |
| <b>Ingestion:</b>                                          | No data available                                                                                                                                |
| <b>Germ cell mutagenicity:</b>                             | No data available                                                                                                                                |
| <b>Carcinogenicity:</b>                                    | No data available                                                                                                                                |
| <b>Reproductive toxicity:</b>                              | No data available                                                                                                                                |
| <b>Specific target organ toxicity - single exposure:</b>   | No data available                                                                                                                                |
| <b>Specific target organ toxicity - repeated exposure:</b> | No data available                                                                                                                                |
| <b>Aspiration hazard:</b>                                  | No data available                                                                                                                                |
| <b>Signs and Symptoms of Exposure:</b>                     | Refer section 2.3                                                                                                                                |
| <b>11.2 Additional toxicological information</b>           |                                                                                                                                                  |
| <b>Biodegradability:</b>                                   | Not biodegradable                                                                                                                                |

## SECTION 12: Ecological information

|                                                  |                                                                                                      |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------|
| <b>12.1 Toxicity</b><br><b>Aquatic toxicity:</b> | LC50(fish): no data available<br>EC50(daphnia): no data available<br>ErC50(algae): no data available |
| <b>12.2 Persistence and degradability:</b>       | Not Biodegradable                                                                                    |
| <b>12.3 Bioaccumulative potential:</b>           | Low bioaccumulative                                                                                  |
| <b>12.4 Mobility in soil:</b>                    | High mobility                                                                                        |
| <b>12.5 Other adverse effects:</b>               | No data available                                                                                    |

## SECTION 13: Disposal considerations

|                                            |                                                                 |
|--------------------------------------------|-----------------------------------------------------------------|
| <b>13.1 Waste treatment methods</b>        |                                                                 |
| <b>Uncleaned packaging Recommendation:</b> | dispose of in accordance with local hazardous waste regulations |
| <b>Recommended cleansing agents:</b>       | Water, mild detergent solutions.                                |

## SECTION 14: Transport information

|                                                                 |                     |
|-----------------------------------------------------------------|---------------------|
| <b>14.1 UN-Number · ADR, ADN, IMDG, IATA:</b>                   | Not applicable      |
| <b>14.2 UN proper shipping name · ADR, ADN, IMDG, IATA:</b>     | Not applicable      |
| <b>14.3 Transport hazard class(es) · ADR, ADN, IMDG, IATA :</b> | Not applicable      |
| <b>14.4 Packing group · ADR, IMDG, IATA:</b>                    | Not applicable      |
| <b>14.5 Environmental hazards:</b>                              | None                |
| <b>14.6 Special precautions for user:</b>                       | Handle responsibly. |

## SECTION 15: Regulatory information

|                                                                                                                                           |                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|
| <b>15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture</b><br><b>Directive 2012/18/EU</b> | Directive 2012/18/EU, under that this substance is not classified in listed substances. |
| <b>Named dangerous substances:</b>                                                                                                        | This substance is not listed in the annex 1 to the directive.                           |
| <b>15.2 Chemical safety assessment:</b>                                                                                                   | Chemical assessment has not been carried out.                                           |

## SECTION 16: Other information

The data included was derived from international authoritative database and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and limitations of our knowledge, this document is only for reference. Users should make their independent judgment suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.
